

Match Report

Spain-Ukraine

Today we saw the first game between Spain (Catholic University of SA Murcia) and Ukraine (SUMI National University) on this championship. Because of the lead of the Ukrainian team the Spanish coach decided to take the goalie out of the game and put another player in. That did not help him because the finally score, despite all, was 6:2.

Louvain, Bel – Coimbra, Por

At the beginning of the game the teams were quite equal. The Portugal team led in the first half with 1:0. The other half was more dynamic. Belgium managed to score three goals, but that was not enough, because the Portuguese played excellent and the result of the game was 3:8.

Interview: Vitomir Blagojevic, CRO

The match between the Croatian (University of Zagreb) and the Polish (University of Physical Education in Wroclaw) team was from the beginning to the end very undecided. At first the Croatian team took the lead but the Polish team quickly caught up with them. In the second half Croatians took control of the ball and won 8:6.

Short statement of Croatian coach:
"The game was difficult. At first we were leading but then we lost one of our good players. We needed some time to get back on our feet. We knew that we could come back and win.

We do not have special purpose we just play one game at the time and we want to show that we have enough power to win. All teams are good so we do not have a special plan, just to win the game we are playing."

Selected Reports

Slovenia-Italy

The defending champions, Ljubljana, looked like a second game without a win when they were 2-1 down to the Italians with 15 minutes left. A solid second half performance and a never say die attitude saw the crowd's favourites, and native team, score two late goals to secure their first victory

Ljubljana celebrate as Kuplic equalises

The Slovenian team said that they are happy with their game. They are hoping to be as good as last year, when they won in Novi sad. So far they played two games; they made a tie once and won the other one, so they are still on course for top spot in the group.
